Fapas® QC MATERIAL DATA SHEET	T29120AQC
Matrix	Coconut Milk
Weight / Volume of Contents	30 g

Analyte	Qualitative Results	
	Consensus of Participants Results	% of results agreeing with assignment / consensus
Cow's Milk	Detected	83

<sup>\*</sup>indicates whether or not the analyte was as a known ingredient in the test material

This data sheet is applicable until	04 Feb 2026
Recommended Storage on receipt	-20°C

## Notes

- Mix the QC material thoroughly before taking a representative analytical sample.
- The designated value has been derived from the consensus of laboratories taking part in the accompanying proficiency test, using a variety of methods. This is not a certified reference value.
- Stability of the QC material has been established as sufficient for the scope of the
  proficiency test from previous experience, expert advice and published literature. Fapas®
  advises that the QC material is analysed within the recommended date. Fapas® QC
  materials are intended to be used as single-analysis samples.
- Full details on the proficiency test procedure used to characterise this QC material are available in the Protocol, Part 1 - Common Principles, freely available to download from the Fapas<sup>®</sup> website.
